SKILLS PROGRAMME ARTISAN AIDES

- FITTING
- ELECTRICAL
- PLATER WELDER
- DIESEL MECHANIC

Objectives:

To develop a basis of engineering skills which we believe the “Master Handyman” requires in his/her career which address the business engineering and maintenance requirements at the base level. Learners who have been declared competent in the outcomes related to these skills programmes will have the knowledge, understanding, skills and attitudes to work proactively in engineering and maintenance functions.

This skills programme is:

- A **registered MQA Skills Program.**
- Is **recommended** for all permanently employed **Artisan Assistants** and **Handymen** in Engineering.

Duration:

2 Blocks of 6 weeks intensive training at the Technical Skills Academy.

The Fitter, Electrical and Plater Welder will be assessed for the completion of the On the Job training Modules.

NB: The Diesel Mechanic programme will require time at the workplace for the completion of the On-The-Job training modules.

Registration and booking required:

MQA

Benefits:

Establish a knowledge basis of process and

- routine maintenance principles.
- Creates a solid foundation for a multi skilled Operator Support and Handyman.
- Obtain MQA Qualification.

The Artisan Aide skills programmes are offered in the following trades;

- Fitting and Turning
- Electrical
- Plater Welder
- Diesel Mechanic
